

# USING AN EMBED CODE IN A PAGE

Complete the following steps to embed a video or other web item into a content page.

1. Go online to Canvas: [kellerisd.instructure.com](https://kellerisd.instructure.com).
2. Log in using your Keller ISD email and password.
3. Click a course to work in from the **Courses** drop down menu at the top.
4. Click pages
5. If you see the list with all the pages, move to step 6. Click the **View All Pages** button.
6. Click +Pages button in the top right corner to open a new page.
7. Give your new page a title and start entering content into your new page.
8. When you get to the point on your page where you would like to embed content, type a title for the embedded content. (This is to help you load in a later step.)
9. Open a new tab in your web browser and navigate to the page with the content you want to embed.

**Chuck Norris Khan Academy Video**

# USING AN EMBED CODE IN A PAGE

Complete the following steps to embed a video or other web item into a content page.

10. Anything that has an embed code, can be embedded into a content page. Examples are Padlet, Khan Academy videos, Thinglink, Prezi, etc.
11. Find the **Share button**.
12. Click **Share**. Then click **Embed**.

13. A box will open with an embed code. Highlight and copy the entire code.

Copy and paste this code into your blog or website to embed a full-featured Khan Academy video player (with energy point tracking, etc)!

```
<a style="color: #111; font-family: helvetica;" target="_blank"
href="https://www.khanacademy.org/video/combining-like-terms?utm_campaign=embed">
  <b>Combining like terms introduction</b>: In simple addition we learned to add all the numbers
  together to get a sum. In algebra, numbers are sometimes attached to variables and we need to
  make sure that the variables are alike before we add the numbers.
</a><br/>
<iframe frameborder="0" scrolling="no" width="560" height="355"
src="https://www.khanacademy.org/embed_video?v=CLWpkv6ccpA" allowfullscreen
webkitallowfullscreen mozallowfullscreen></iframe>
```

14. Click back to your Canvas content page you were working on.

15. Click **HTML Editor** in the top right.

# USING AN EMBED CODE IN A PAGE

Complete the following steps to embed a video or other web item into a content page.

CHUCK NORRIS KHAM Academy

16. Look through the code to find the Video title that you added to your content page earlier.
17. Once you find the link with your video title, put your cursor at the end of the line and ***press enter***.

```
<p>Monday:</p>
<p>Complete warm-up</p>
<p>Watch the video below:</p>
<p><strong>Chuck Norris Khan Academy Video</strong></p>
```

18. Paste the ***embed code*** you copied.
19. Scroll down to the bottom of your page and ***click Save***.

20. Your video/item is now embedded in your page and ready for use.
